VP of Data  
World Data Lab

**Mario Lootz-Petersen**

Senior Policy Officer  
BMZ

**Fanni Zentai**

Component Leader  
SV InnoBlue GIZ

**Peter Burek**

Senior Research Scholar  
IIASA

The World Data Lab together with GIZ invite you to join us for the launch of the Water Crisis Clock (WCC). The objective is to share insights emerging from the WCC. The session will include speakers from WDL, BMZ, GIZ, IIASA. The WCC highlights the urgent need for action and fosters evidence-based decision-making to accelerate progress toward UN Strategic Development Goal 6- Clean Water and Sanitation. The launch aligns with World Water Day, 2025 and underscore the importance of visualizing water scarcity as a means to catalyze global action to ensure a future where water resources are safeguarded for generations to come.
